* The finance figure is shown only as an example. It is based on a trade-in or deposit of 25% of the value of the new Harley-Davidson, 60 monthly payments with no end payment. You own your Harley-Davidson outright at the end - and keep in mind, Harley-Davidson motorcycles hold their value over long periods better than any other brand of motorcycle, meaning you have high equity remaining in your motorcycle at the end of the finance period. Please ask for full detail of these or any of our competitive tailored finance plans.

All prices are presented as "on the road" including dealer delivery, disposal of crating materials, set-up costs, correct taxes including vehicle registration tax. We recommend official H-D accessories for build quality and your safety. All accessories fitted to your Harley when new, benefit from the same 2 year warranty as your motorcycle. Make your Harley your own!
